INOX  
PROJECT

## FIMET MANIGLIE SRL

Affermata azienda leader nella produzione di maniglie, maniglioni ed accessori in ottone, lega di zinco ed Acciaio Inox, presenta ora sul mercato un nuovo progetto:

Successful company, leader in the production of handles, pull-handles and accessories in brass, zinc alloy and stainless steel, now presents a new project on the market:

# INOX PROJECT

## MISSIONE

Mettere a disposizione dei clienti la nostra esperienza ed il nostro know-how trentennale nella progettazione e costruzione di maniglioni ed accessori in Acciaio Inox e leghe di Alluminio, favorendo così la creazione e la realizzazione di prodotti personalizzati adatti a qualsiasi progetto.

## MISSION

To provide our customers with our experience and our thirty-year know-how in the design and construction of handles and accessories in stainless steel and aluminum alloys, thus favoring the creation and realization of customized products suitable for any project.

## PRODUZIONE

### “STANDARD”

Maniglie, maniglioni e accessori in Acciaio Inox.

### “A RICHIESTA”

Realizzazione di maniglioni con misure specifiche su richiesta del cliente (lunghezze ed interassi speciali) .

### “CUSTOM MADE”

Realizzazione di diverse tipologie di prodotto su disegno del cliente.

Risposta immediata sulla fattibilità del prodotto.

Materiali lavorati : Acciaio Inox Aisi 304/ 316L

- Alluminio varie leghe.

## OUR PRODUCTION

### “STANDARD”

Handles, pull-handles and accessories in stainless steel.

### “ON DEMAND”

Realization of handles with specific measures on customer request (lengths and special interaxes).

### “CUSTOM MADE”

Realization of different types of products according to the customer's design. Immediate response on the feasibility of the product.

Materials processed: stainless steel Aisi 304 / 316L

- Aluminum various alloys.

## OBBIETTIVO

La scelta di materiali sempre di prima qualità, e l'attenzione per l'ambiente sono i tratti distintivi che guidano l'operato di Fimet. In questa scia s'inseriscono a pieno titolo l'attenzione con la quale la nostra azienda studia prima e progetta poi i modelli di maniglie. Oggetti adatti a soddisfare le specifiche esigenze della vasta clientela. Come da tradizione, accurata ricerca di soluzioni tanto tecniche quanto stilistiche volte a venire incontro alle richieste dei nostri clienti sono, esse stesse, la migliore garanzia di una produzione di alta gamma. Non occorre certo sottolineare che la flessibilità e la professionalità insite nella realizzazione della nostra produzione contraddistinguono la nostra attività. Da sempre Fimet offre un'attenzione particolare alle specifiche esigenze della propria clientela: soluzioni tecniche personalizzate, servizi di vendita e post-vendita mirati fanno parte della nostra cultura aziendale. Fimet è un'azienda che rappresenta nel mondo l'eccellenza produttiva del Made in Italy: la cura per i dettagli, la scelta delle materie prime, la passione che guida i nostri responsabili sono sinonimo di qualità.

## OUR TARGET

The choice of top quality materials and attention to the environment are the hallmarks that guide the work of Fimet. In this path they are fully inserted the care with which our company studies first and then designs the new models of handles. Objects suitable to satisfy the specific needs of its clientele. As per tradition, the careful search for stylistics as well as technical solutions designed to meet the demands of our customers are, themselves, the best guarantee of a high-end production. It is certainly not necessary to emphasize that the flexibility and professionalism inherent in the realization of our production characterize our activity. Fimet always pays special attention to the specific needs of its customers: customized technical solutions, aimed sales and post-sales services are part of our corporate culture. Fimet is a company that represents in the world the manufacturing excellence of Made in Italy: the attention to detail, the choice of the materials, the passion that drives our managers are synonymous of quality.

ALLA COSTANTE RICERCA DI NUOVE TECNOLOGIE,  
FIMET PRESENTA IL SUO RIVESTIMENTO ANTIBATTERICO.

HDC è un Top Coating trasparente che combina una finitura di alto livello e un'efficacia antibatterica e antimicrobica, grazie agli ioni argento. Ciò garantisce un elevato grado di igiene. Lo descriviamo brevemente con la regola delle 5W:

### Who?

HDC è una vernice a base polimerica che funziona rilasciando gli ioni argento, che sono il suo vero principio attivo. Questa vernice trasparente è disponibile nei seguenti livelli di brillantezza:

- HDC Shiny (>90 gloss) - HDC Semi-opaque (20/25 gloss) - HDC Opaque (8/10 gloss)

Grazie allo spessore di 15/20 nm HDC funge anche da protettivo, migliorando le proprietà antigraffio e la resistenza agli agenti atmosferici, lasciando invariato l'aspetto estetico.

### What?

In conformità con le norme europee, HDC agisce contro microrganismi e microbi (ISO 22196) e contro i virus (ISO 21702).

### Where?

HDC è adatto sia per interni che per esterni, installato in ambienti domestici, enti urbani e collettivi in genere, hotel, luoghi pubblici e locali sanitari. HDC può essere applicato su tutti i supporti metallici (ottone, rame, alluminio, acciaio inossidabile, ferro, lega di zinco), rivestiti con ogni finitura (cromo satinato e lucido, nichel, PVD, colore o vernice trasparente).

### When?

HDC inizia immediatamente la sua funzione antibatterica e antimicrobica sino all'eliminazione di oltre il 99% degli stessi nell'arco delle 24 ore. Questo effetto dura per l'intera vita del rivestimento. Consigliamo una pulizia delicata delle superfici trattate con HDC.

### Why?

Il progetto HDC nasce dalla necessità di conferire in modo flessibile ed economico una difesa contro batteri e microbi, nemici della salute. Infatti il 2% dei batteri può rivelarsi molto pericoloso per l'essere umano.

CONSTANTLY LOOKING FOR NEW TECHNOLOGIES,  
FIMET PRESENTS ITS ANTIBACTERIAL COATING.

HDC transparent top coating combines a high level finish and an antibacterial and antimicrobial efficacy, thanks to the silver ions. This guarantees a high hygiene degree. We briefly outline it with the 5W rule:

### Who?

HDC is a polymer-based lacquer, and it works releasing the silver ions, which are its real active substance. This transparent lacquer is available in the following gloss levels:

- HDC Shiny (>90 gloss) - HDC Semi-opaque (20/25 gloss) - HDC Opaque (8/10 gloss)

Thanks to its 15/20 nm thickness, HDC has a further barrier function, improving the scratchproof properties and the weather resistance, leaving the aesthetic appearance unchanged.

### What?

In compliance with the European rules, HDC works against micro-organisms and microbes (ISO 22196) and against viruses (ISO 21702).

### Where?

HDC is suitable both for interior and for outdoor items, installed in home environments, urban and collective entities in general, hotels, public places and sanitary premises. HDC shall be applied on every metal base (brass, copper, aluminum, stainless steel, iron, zinc alloy), coated with every finish (satin and polished chrome, nickel, PVD, color or transparent lacquer).

### When?

HDC immediately starts its antibacterial and antimicrobial function, and it is over 99% effective against bacteria within 24 hours. This effect lasts for the entire item's lifetime. We recommend a gentle cleansing of the HDC treated surfaces.

### Why?

HDC project stems from the need to provide a flexible and cost-effective defense against bacteria and microbes, enemies of health. In fact, the 2% of the bacteria total population is highly dangerous for human beings.

## COME AGISCONO GLI IONI DI ARGENTO HOW SILVER IONS WORK

1. Penetrando nella membrana cellulare del microbo  
They penetrate into the microbe's cellular membrane
2. Soffocano la respirazione del microbo  
They suffocate the microbe's breathing
3. Aggredisce il DNA del microbo per impedire la riproduzione  
They attack the microbe's to prevent its reproduction

HDC Health Defense Coating  
è certificato da 3A Laboratori

*HDC Health Defence Coating  
is certified by 3A Laboratories*

## SISTEMA DI IGIENIZZAZIONE HYGIENIZATION SYSTEM

Fimet ha creato un prodotto specialistico per controllare i valori della carica batterica su superfici e attrezzature dopo le normali operazioni di pulizia, nel settore alimentare, farmaceutico, etc... La speciale formulazione a base di Etanolo anidro (>75°ABV) e di un nuovo principio attivo conferisce al prodotto una elevata attività batteriostatica superiore ad ogni altro prodotto in commercio. Il prodotto trova utile impiego nell'implementazioni delle procedure di sanificazione HACCP, ed in tutte le operazioni di pulizia e sanificazione dei nostri prodotti. È utilizzabile su tutte le superfici lavabili non lascia aloni. Non contiene composti classificati tossico / nocivi.

Fimet has created a special product to check the values of the bacterial load on surfaces and equipment after normal cleaning operations, in the food, pharmaceutical sector etc. The special formulation based on anhydrous Ethanol (75° AVB) and on a new active ingredient gives the product a high bacteriostatic activity superior to any other product on the market. The product is useful for implementing HACCP sanitization procedures and in all cleaning and sanitizing operations of our products. It does not contain toxic / harmful compounds.

**SISTEMA DI MONTAGGIO**  
**ASSEMBLY SYSTEM**

1. ESEGUIRE UN FORO DI 22MM DI DIAMETRO NELLA PORTA.
2. INSERIRE IL FERRO QUADRO NELLA SERRATURA, RIVOLGENDO LA FRESATA O IL FORO VERSO LA POSIZIONE DEL FORO GRANO PRESENTE SULLA MANIGLIA.
3. APPORRE UNA PICCOLA QUANTITÀ DI COLLA SUL DIAMETRO ESTERNO DELLA ROSETTA (SULLA PARTE CHE ANDRÀ INSERITA NELLA PORTA) ED INSERIRLA NEL FORO SULLA PORTA.
4. POSIZIONARE LA MANIGLIA, E FISSARLA SUL FERRO QUADRO AVVITANDO L'APPOSITO GRANO FINCHÉ QUESTO NON SI BLOCCA.

**FT022**

FRESA PER FORO Ø 22 mm  
CUTTER FOR Ø 22 mm HOLE

1. DRILL A 22MM DIAMETER HOLE INTO THE DOOR.
2. INSERT THE SQUARE SPINDLE INTO THE LOCK. THE SQUARE SPINDLE'S MILLING OR THE HOLE HAS TO BE POINTED TO THE HANDLE'S GRUB SCREW HOLE.
3. PUT A SMALL QUANTITY OF GLUE ON THE ROSE'S OUTER DIAMETER (ON THE PART THAT WILL BE INSERTED IN THE DOOR). INSERT THE ROSE IN THE DOOR.
4. POSITION THE HANDLE, THEN FASTEN THE GRUB SCREW IN THE HANDLE'S DESIGNATED HOLE, UNTIL IT STOPS.

C

CERTIFIED

## LA MANIGLIA PER PORTE TAGLIAFUOCO

DEVE GARANTIRE L'APERTURA DELLA PORTA DURANTE E DOPO UN INCENDIO. PERTANTO, IL FUNZIONAMENTO DELLA MANIGLIA E DEI SUOI COMPONENTI VIENE GARANTITO CON IL MASSIMO RIGORE

**CARATTERISTICHE:**

- Testata per funzionare oltre 200.000 cicli di apertura
- Maniglia in acciaio inox aisi 304
- Certificata secondo la normativa ÖNORM B 3850 presso l'istituto IBS di Postfach (Austria)
- Durata della resistenza al fuoco: 30 minuti

## A SAFETY HANDLE FOR FIRE DOORS

HAS TO ENSURE OPENING OF THE DOOR DURING AND AFTER A BLAZE. THEREFORE, THE FUNCTIONALITY IS STRICTLY GUARANTEED BOTH FOR THE HANDLES AND FOR COMPONENTS OF THE SAME.

**FEATURES:**

- Endurance tested for over 200.000 opening and closing operations
- Handle made of aisi 304 stainless steel
- Certified according to ÖNORM B 3850 relevant rule in IBS Institute based in Postfach (Austria)
- Fire resistance endurance: 30 mins

Türdrücker und Türkäufe gemäß EN 1906 : 2012

## Prüfbericht:

Nr.: 14-003887-PR02

(PG-GG) 33 (se-01)

### Auftraggeber:

Fimet Mariglio S.R.L.  
Loc. Merlano n°21  
25078 Nozza di Vestone  
Italia

### Produkt:

Türdrückerrundroseitengarnitur mit Profizylinderlochung / Türdrücker / Türkäufe

### Bezeichnung:

System: INOX Door Lever Handle  
Typ: Inox art. 101 236 Inox art. 102 236  
Inox art. 103 236 Inox art. 131 236

### Leistungswirksame Produktartefakte:

Materiale Drücker: Edelstahl,  
Lagerung Drehbar-Fest,  
Drückenverknert: 8,0 mm,  
Materiale Drückenverknert: Stahl

### Montage:

Gemäß der Montageanleitung des Beschlagsherstellers. \*)

### Besonderheiten:

### Grundlagen:

EN 1906 : 2012

Normen:

EN 1906 : 2012

Eingetragen im nationalen F&E-Katalog (z.B. DIN EN)

### Darstellung:

### Vorstellungsbildmerkmale:

Dieser Profil ist durch sein Nachweis der Anforderungen, von Europäischen und Türkische Norm (EN 1906 : 2012)

### Gültigkeit:

Die gezeigten Daten und Zeichnungen sind ausschließlich zur Verfügung gestellt worden für die Zwecke der Klassifizierung als ein Teil des Produkts. Die Verantwortung für die Einhaltung der technischen Anforderungen liegt bei dem Hersteller. Die Ausführung der Montage muss den Angaben der Montageanleitung entsprechen.

### Ergebnis:

Klassifizierung gemäß EN 1906 : 2012

| Getriebe-kategorie | Überfall-typ | Türmass | Feuerbest-dändigkeit | Sicherheit | Korrosion-beständig-keit | Einsatz-zeit | Ausfüh-rungsart |
|--------------------|--------------|---------|----------------------|------------|--------------------------|--------------|-----------------|
| 3                  | 7            | +       | 0                    | 0          | 4                        | 0            | B               |

Drückenverknert: 8,0 mm, Materiale: Stahl, Lagerung: Drehbar-Fest

Prüfstellenleiter  
Mechanik

Verpflichtungen gemäss EN 1906 : 2012 sind erfüllt. Die Verantwortung für die Einhaltung der technischen Anforderungen liegt bei dem Hersteller.

Der Nachweis ist gültig bis zum Ende der Gültigkeitsdauer.

Das Dokument ist eine Kopie des Originaldokuments. Der Nachweis ist gültig bis zum Ende der Gültigkeitsdauer.

La certificazione DIN EN 1906 è una regolamentazione internazionale ed europea per maniglie e pomoli per porte su rosette o placche. La norma DIN EN 1906 stabilisce quattro categorie d'uso in base alla frequenza e alle altre condizioni di utilizzo definite come segue:

**CLASSE 3:**

Alta frequenza di utilizzo, da enti pubblici o persone senza alcuna cura, ad alto rischio di abuso.

Per esempio: porte nelle aree pubbliche ed edifici pubblici.

Per ottenere questa certificazione, le nostre maniglie sono state sottoposte a vari test che simulano le varie sollecitazioni alle quali sono normalmente esposte nella vita di tutti i giorni. Le nostre maniglie sono state certificate dall'istituto Ift di Rosenheim

*The certification DIN EN 1906 is an International and European standard for door handles and knobs for doors on backplates or roses. The DIN EN 1906 states four categories of use according to the frequency and other conditions of use as follows:*

**CLASS 3:**

*High usage frequency, by public or persons with no care, high risk of misuse.*

*For example: doors in public areas and public buildings.*

To obtain this certification, our handles have been submitted to various test simulating the different stresses to which they are normally exposed to in everyday's life. Our handles have been certified by the Ift Rosenheim Institute.

# CONDIZIONI DI VENDITA

---

- Tutte le vendite vengono effettuate alle condizioni generali della ditta venditrice e potranno essere modificate solo con atto scritto della medesima.
- Tutte le vendite si intendono fatte "salvo approvazione della ditta".
- I prezzi si intendono franco ns. stabilimento. I prezzi sono sempre da intendersi al netto delle vigenti impostazioni fiscali.
- La merce viaggia a rischio e pericolo del committente anche se la spedizione avviene in porto franco
- Non verrà accettata merce in restituzione se non previo benestare della ditta venditrice.
- La ditta garantisce la ottima qualità dei prodotti e si impegna a sostituire solo il materiale che risultasse difettoso per carenza di costruzione.  
È però espressamente escluso il risarcimento di ogni eventuale danno.
- È nostra cura effettuare le consegne con la massima velocità consentitaci. Non vengono accettate richieste di risarcimento per ritardi di consegna.
- Qualsiasi reclamo sarà valido solamente se viene fatto per iscritto entro il termine di 8 gg. dal ricevimento della merce.  
Il reclamo s'intenderà decaduto qualora il compratore abbia consumato la merce.
- In caso di reclamo giustificato forniremo, per la merce resaci allo stato originale, della merce corrispondente all'ordine.
- Le illustrazioni e i dati tecnici riportati sui nostri cataloghi debbono essere considerati approssimativi potendo i modelli subire delle variazioni e modifiche senza obbligo di preavviso da parte della ditta.
- Per ogni controversia che si venisse a creare tra le parti sarà competente l'autorità giudiziaria di Brescia.

## TERMS OF SALE

---

- All sales are made under the Seller's general terms conditions, and modifications may only be made upon written authorisation from the same.
- All sales are intended as "subject to the company's approval".
- Prices are quoted ex works and after deduction of the relevant taxes.
- All goods travel at the Buyer's risk even if despatched carriage free.
- Returned goods will only be accepted upon the Seller's approval.
- The manufacturer guarantees the quality of the products and undertakes to replace only goods found to have workmanship defects.  
Damages will not be refunded.
- We will do our utmost to make deliveries as promptly as possible. Claims for delayed deliveries will not be accepted.
- Claims will only be valid if made in writing within 8 days of receipt of the goods. Claims will not be valid if the buyer has used the goods.  
In the case of justified claims and goods returned in their original state, we will supply goods corresponding to the order.
- The drawings and technical data shown in our catalogues are to be considered as approximate since the models are subject to variation or modification at any time without prior notice.
- Any disputes between the parties will be put before the Court of Brescia.
